Hong Kong Sanatorium & Hospital takes part in Hong Kong International Medical & Health Care Fair 2006

(26 July 2006, Hong Kong) The Hong Kong Sanatorium & Hospital (HKSH) will be taking part in the first event of the Hong Kong International Medical & Health Care Fair to be launched from 17 to 21 August 2006 at the Hong Kong Convention and Exhibition Centre.

Being one of the leading private hospitals in Hong Kong, the Hong Kong Sanatorium & Hospital will be showcasing some of its major services to visitors, namely, Minimally Invasive Surgery, Comprehensive Cancer Treatment at the HKSH booth and Medical Imaging in the Virtual Hospital part of the Fair.

In the Virtual Hospital exhibition area sponsored by Hong Kong Private Hospitals Association, we will take visitors to the World of Medical Imaging where visitors can experience how imaging diagnosis is conducted and view magnificent medical images with high resolution produced by the state-of-the-art equipment such as

64-Slice CT Scanners and 3 Tesla whole-body MRI Scanner.

At the HKSH booth, we will introduce to visitors our comprehensive minimally invasive surgery in every specialty such as Gastroenterology, Gynaecology, and Orthopaedics. Using sophisticated surgical techniques, the highly-skilled surgeons of our Minimally Invasive Surgery Centre perform a vast variety of operation on patients with minimal surgical trauma.

Besides, we will demonstrate the holistic and multidisciplinary approach to cancer treatment offered by the Hospital. Tumour can be removed by our team of experienced surgeons. Cancer is better treatment with our advanced radiation equipment such as the first TomoTherapy Hi-Art System in Hong Kong when radiotherapy is indicated. This machine is capable of delivering precise, powerful, efficient and safe image-guided radiation therapy (IGRT). Chemotherapy is given to patients by specialists in a dedicated, personal and safe environment.
