HKSH Phase III Development Topping Out Ceremony

(26 April 2007, Hong Kong) The Hong Kong Sanatorium & Hospital (HKSH) is today holding the topping out ceremony of its Phase III extension. The ceremony marks the completion of the top floor of the Hospital's 20-floor extension, totalling 20,000 square metres added on top of the Li Shu Pui block. The fitting-out work of these additional floors is scheduled for completion in the first quarter of 2008.

The additional space provided by the Phase III extension will enable the Hospital to undertake further redevelopment of the older buildings.

By carrying out the extension project, the Hospital strives to provide quality health care services to patients in a pleasant, comfortable and modern environment.
